

Would Profits Improve ...

- *If your employees were healthier?*
- *If employees could learn about health risks *before* they became serious?*
- *If employees had access to a Personal Health Dashboard?*
- *If you could provide this to your employees with no out-of-pocket costs?*
- *If your employees would see a net increase in their take-home pay? (you should see a net increase in profits by reducing a real expense)*

... the answer is YES!

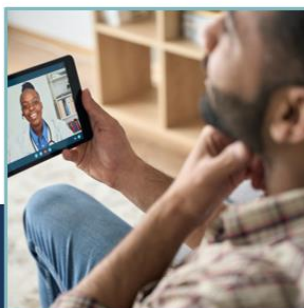

Call today to learn how

Next Steps

- ✓ To create your Proposal we need some payroll data (a.k.a. Payroll Census/Register)
- ✓ We'll analyze the Census; Create a detailed proposal; & Review it with you so you can make your *Let's Go* decision!
- ✓ During Onboarding we'll ...
 - Help Employees activate their account
 - Integrate w/your Payroll process
 - Help you *Bless Others* in your professional network

We will analyze your Census data with our goal to be back to you in 48 hours just as we did for a local Trucking Company with 23 eligible employees:

- The report showed *Employee Take Home Pay* increasing by **\$35k/year**, &
- Their company saved **\$16k/year** in Payroll Taxes

REMEMBER —

Our focus is on Improving the *Physical* Health of your Employees with a side benefit of helping to improve their *Financial* Health!
